

resources for autism

Resources for Autism is an autism charity working across London and West Midlands. Over the next 5 years we have secured funding to work with **16-25 year old autistic young people** and their families in the London Boroughs of **Southwark** and **Lewisham**. Our work will include:

- Bespoke trainings to professionals on autism and neurodiversity delivered by autism experts and experts by experience
- A range of parent groups for parents of autistic young people
- Social activities and workshops to support with transitional milestones and independent living skills
- Developing two co-production panels of parents and young people to work with us on this project

To obtain further details about the service or if your organisation is interested in discussing complimentary training, please reach out to Nazia at nazia@resourcesforautism.org.uk

If you want to make a referral please do so via our website at www.resourcesforautism.org.uk
